Consulting team Ruhland Landscape Architecture and Associates, Colizza Bruni Architects, jp2g Engineering, Wood PLC (Environmental Remediation).

Background

1929

1965

1991

Laroche Park in 2018

Location: Ward 15

Address: 51 Stonehurst Avenue

Size: 2.5 Ha (6.3 acres)

Park amenities : Play ground, Splash pad, benches, gazebo, swings, sand play, trees

Recreation facilities: 2 Baseball diamonds (one in use, one to be decommissioned)

Basketball Court

Full boarded seasonal rink with lighting

Community building/field house

Storage Shed

Planning Studies, Design Plans and Secondary Plans

Neighbourhood Plan Hintonburg and Mechanicsville - City of Ottawa 2010

Wellington Street West Community Design Plan – City of Ottawa 2011

Bayview Station District Community Design Plan - City of Ottawa 2013

Bayview Station Secondary Plan City of Ottawa- City of Ottawa (Amendment) 2015

Scott Street Community Design Plan - City of Ottawa 2014

Scott Street Secondary Plan - City of Ottawa 2014

Sir John A. MacDonald Riverfront Park – National Capital Commission January 2018

Opportunities

- Enhance existing park amenities and recreation facilities
- Provide programming and functional space for existing and future community needs
- Reflect the community historical and geographical assets and provide sustainable, energy efficiency and beautiful design
- Improve environmental conditions and landscaping and drainage issues inherited from past land-use legacy
- Provide connectivity to and through the park
- Provide connectivity from park to proposed pathway system and waterfront / from parkway into the community
- Create visual linkages to river and proposed river activities (NCC- boardwalk, new public spaces, portage route)
- Acknowledge historical references to the areas early natural and human history
- Acknowledge the community's commercial, industrial and cultural history

***Environmental Risk
Management Plan for Park
Improvements***

Previous Investigations

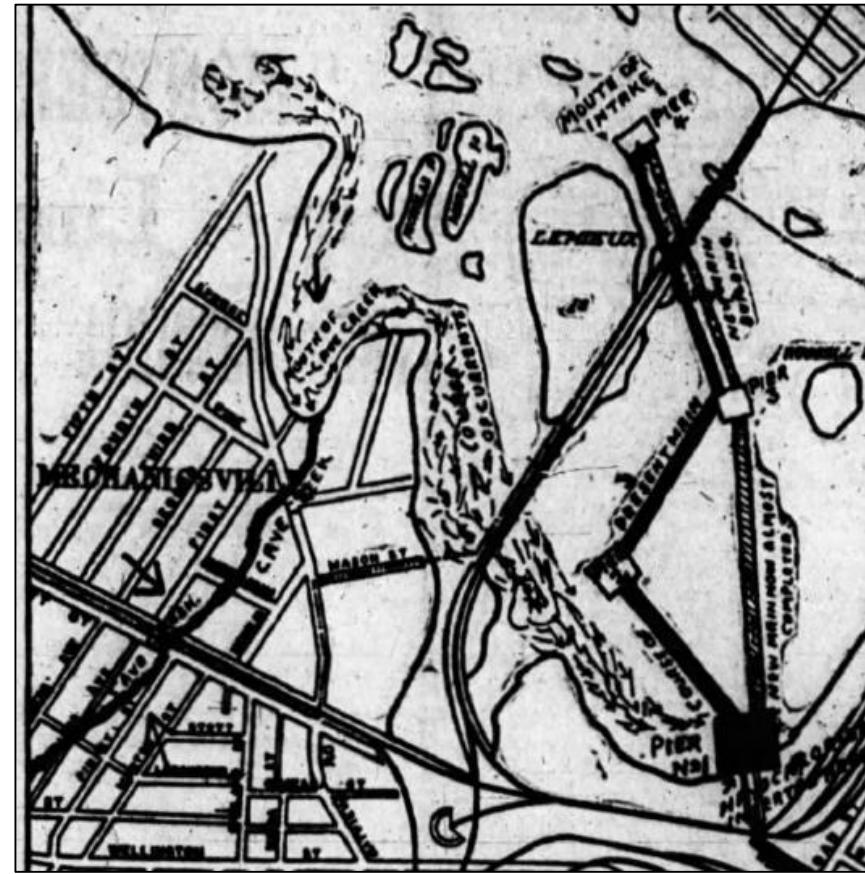

- The southeast portion of the park was identified as a historic landfill site in the 2004 Old Landfill Management Strategy report, Phase 1 – Identification of Sites
- Landfilling activities were reportedly limited to the location of the old septic tank which was infilled between 1928 and 1932
- An investigation completed in the southeast portion of the site in 2005 did not identify any immediate concerns related to the old landfill

Laroche Park - 1927

Recent Investigations

- To support potential redevelopment of the park, a site-wide environmental assessment was completed in 2014-15. The results indicated that waste fill was present across the entire park.
- Additional historical research indicated that the “Stonehurst Ave Dump” operated during the 1910s to 1923 and likely infilled the former Cave Creek
- Waste material contains ash, cinders, glass, metal, brick and porcelain.
- Samples from the playground sand and shallow soil in the north half of the site met provincial standards for parkland use; underlying waste fill exceeds for various metals and PAHs

The Scavenging Department sent in a report explaining the reason for their expenditures being higher to date than at the same time last year. It was partly due to the Stonehurst avenue dump having been closed by the Health Department, necessitating long hauls to the Bronson avenue dump and fewer trips. Deputy Engineer Askwith

Recommendations

- The City is planning to implement a risk management program to isolate the underlying impacted fill across the park
- Designed to prevent direct contact with the underlying fill using an approach referred to as ‘soil capping’. Involves placement of 0.5 m of clean imported soil placed over a geotextile fabric.
- City will retain an environmental consultant to be on-site for the duration of the soil excavation and capping portion of the project.
- A dust control plan and traffic management plan will be developed.
- Site will be routinely inspected following completion to ensure integrity of soil cap.

Park Master Plan

EXISTING SITE - SITE ACTUEL

EXISTING CONSTRAINTS CONTRAINTE ACTUELLES

Park Amenities

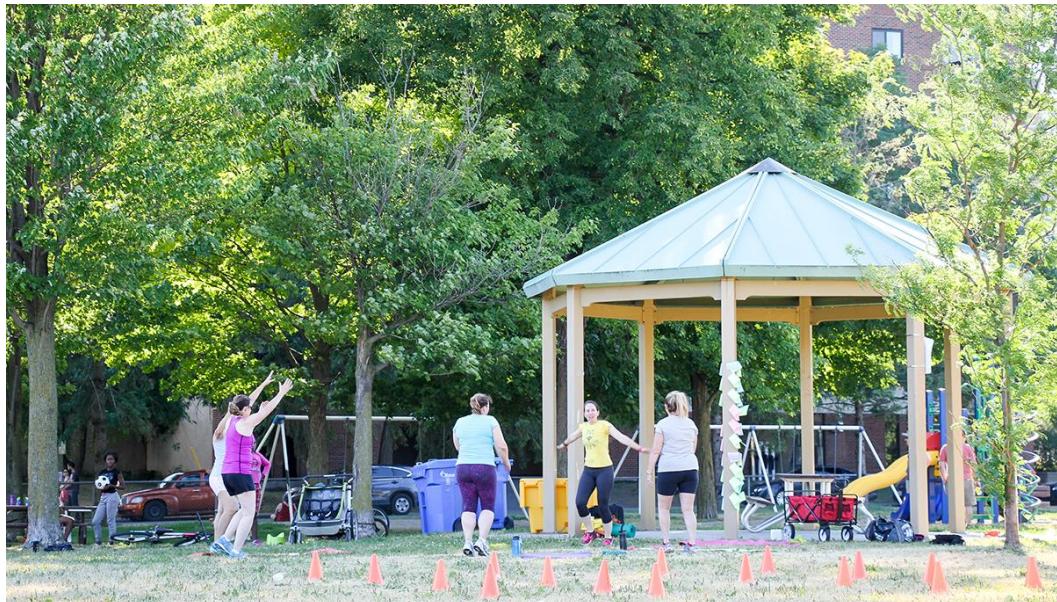

Laroche Park - Renewal Project - 25 July 2018

Parc Laroche - projet de renouvellement - 25 juillet 2018

Project scope and design – Renewal of Existing Park Amenities

Park Elements

- New Community Building
- Accessible Parking Lot
- Accessible Pathways
- New Gazebo
- New Park Furnishings and Park Sign
- Prioritizing the Retention of existing trees
- New plantings and landscaping

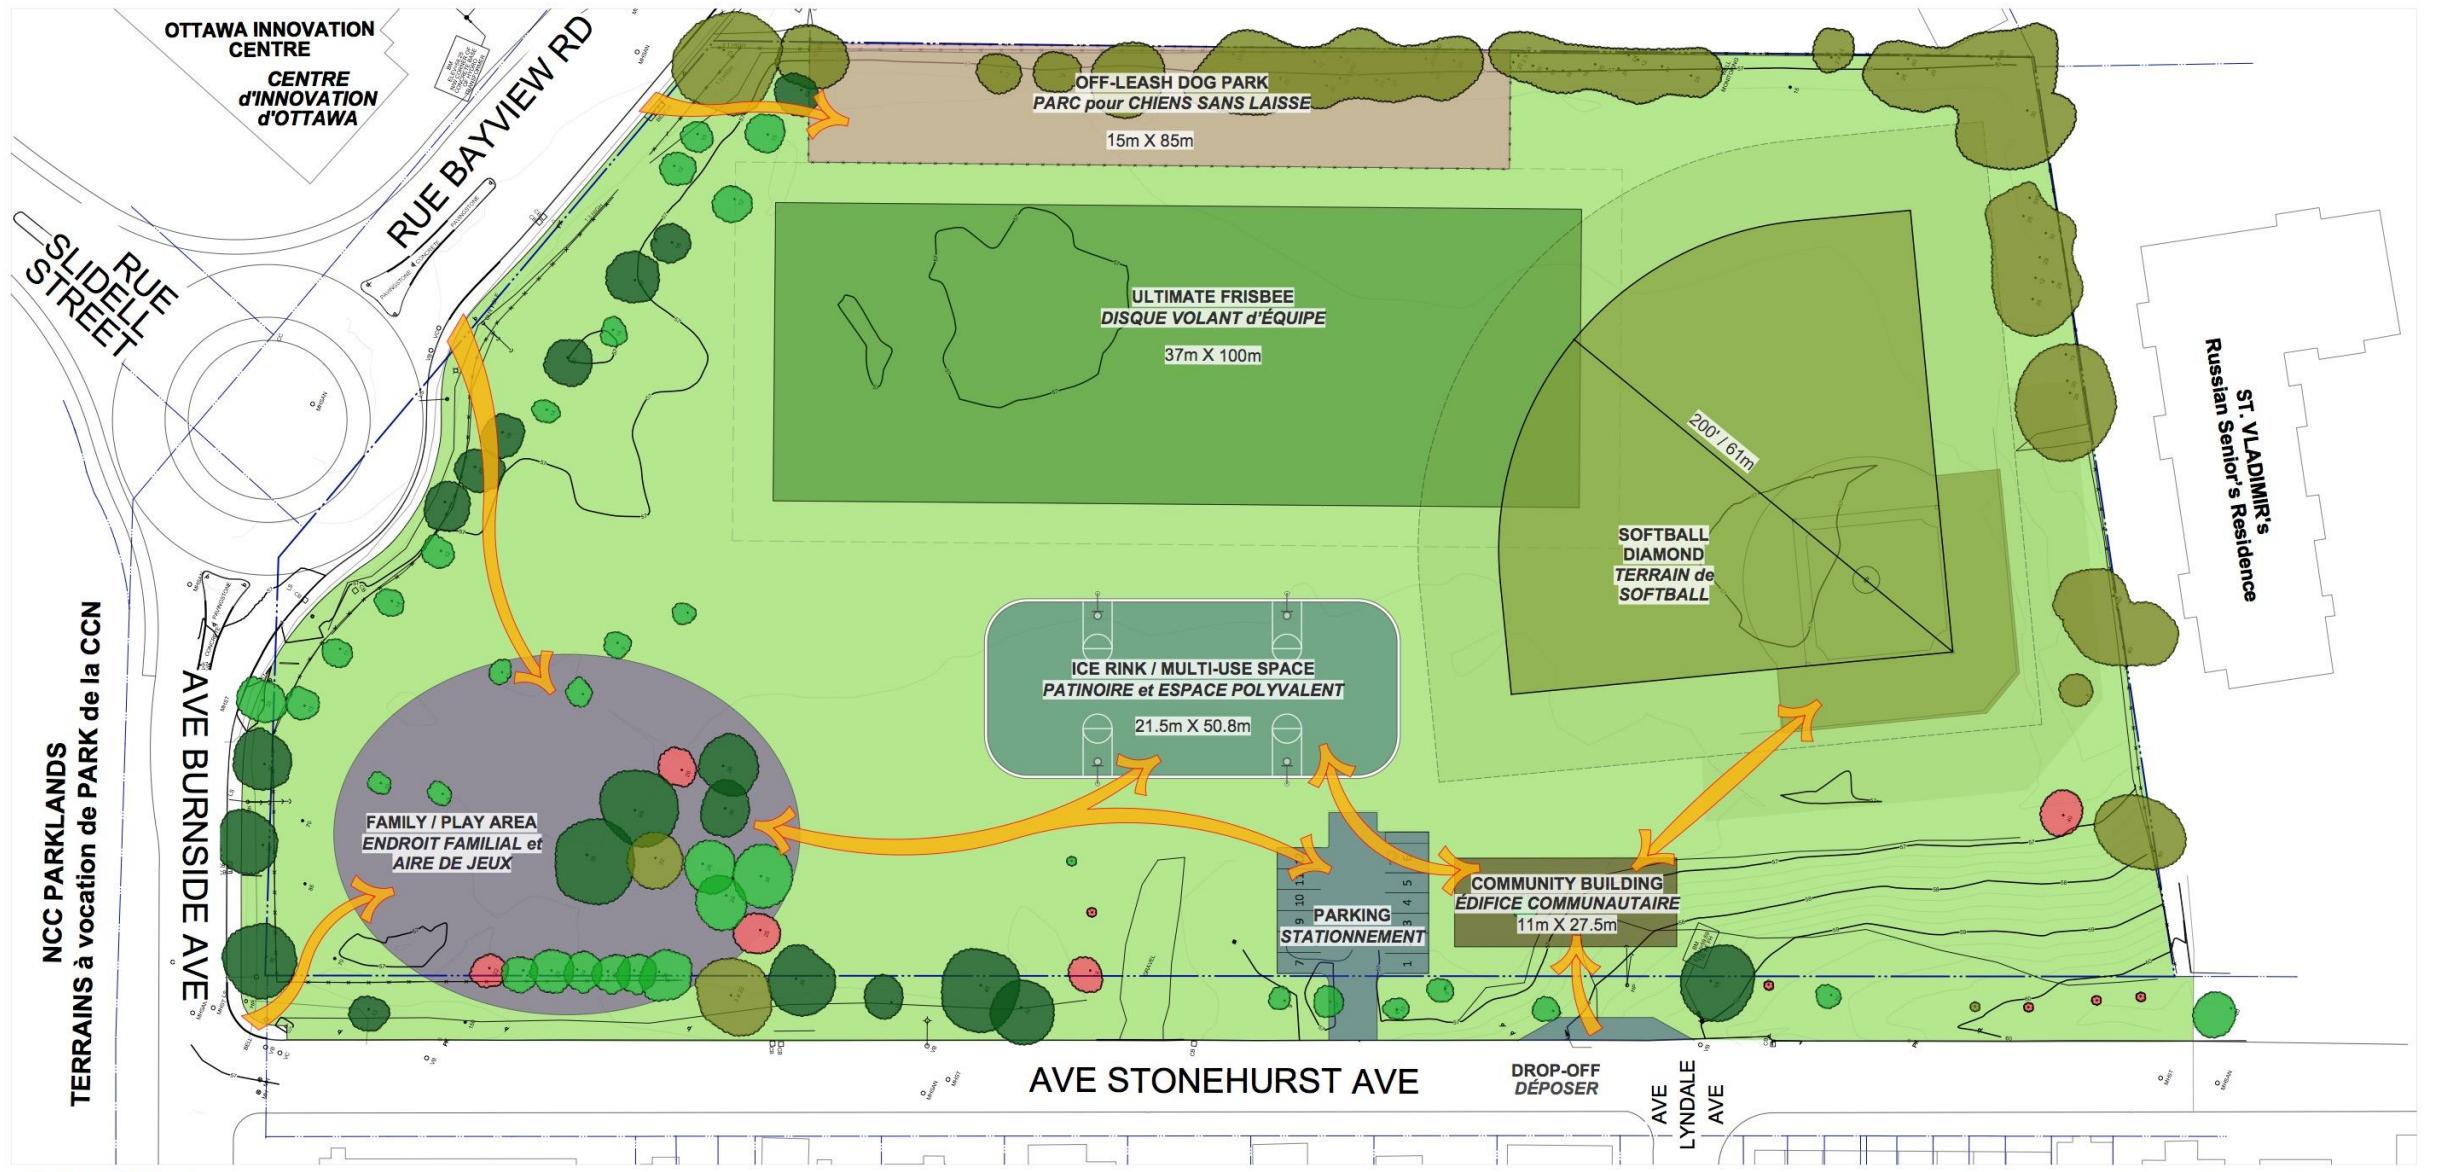

Accessible Play Elements

- New Play Structures
- New Splash Pad
- New Swings
- Sand Play

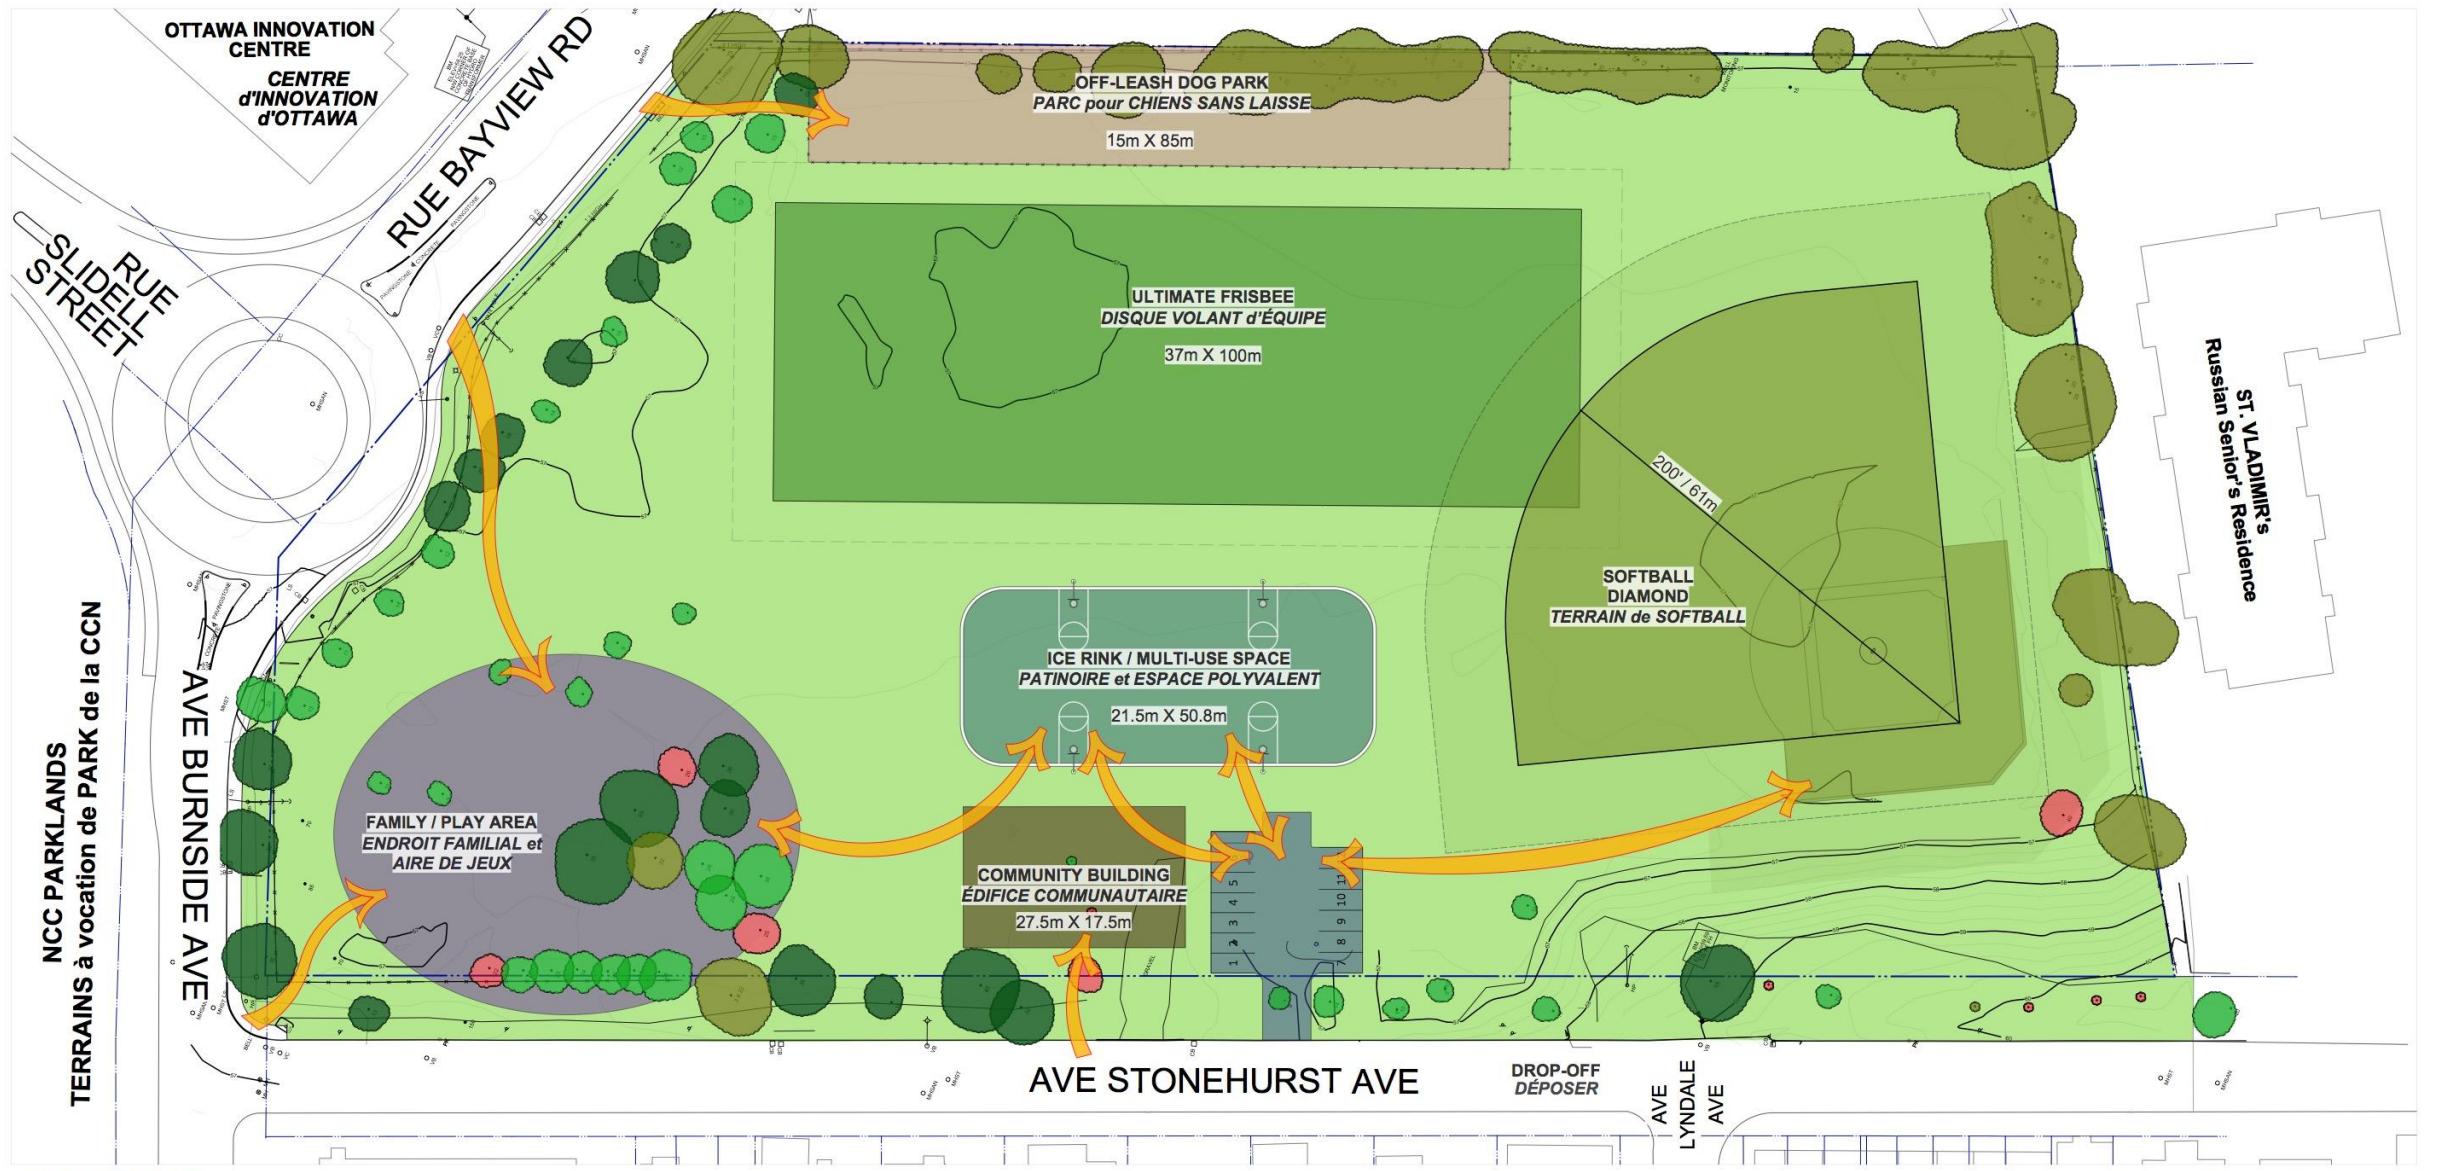

Recreational Amenities

- Decommission North Softball Diamond
- Renewal of South Softball Diamond
- Renewal of Ultimate Frisbee Field with lighting
- Removal of Existing basketball court
- New Sens Rink and multiuse court – full boarded permanent rink with lighting and summer uses
- Possible Fenced Dog Park

**OPTION 1 and EXISTING
OPTION 1 et ACTUEL**

OPTION 2 and EXISTING OPTION 2 et ACTUEL

EXISTING VEGETATION - VÉGÉTATION ACTUELLE

- HIGH PRIORITY TO RETAIN DE GRANDE IMPORTANCE - À RETENIR
- PRIORITY TO RETAIN IMPORTANT - À RETENIR

- FAIR TO POOR CONDITION - LOWER PRIORITY TO RETAIN ÉTAT PASSABLE OU MAUVAIS ÉTAT - MOINS IMPORTANT À RETENIR
- VERY POOR CONDITION - REMOVE TRÈS MAUVAIS ÉTAT - À ENLEVER
